

Charter Township of Clinton
Revised Site Development Procedures
(Revised Site Planning)

An APPLICATION FOR REVISED CERTIFICATE FOR SITE DEVELOPMENT is required to obtain a Revised Certificate for Site Development prior to issue of permits for the same land in the Charter Township of Clinton as previously received approval for Certificate for Site Development.

A Revised Certificate for Site Development is required for additional new construction or reconstruction of an existing building and for changed occupancy of an existing building on a site which may be not be in accord with current provisions of the Clinton Township Planning and Zoning Code and/or other applicable codes or ordinances.

A Revised Certificate for Site Development is required for any addition to or reconstruction of a single-family dwelling only if such dwelling is located in a flood hazard area.

The Charter Township of Clinton requires that land be properly zoned for any proposed development, use or occupancy. If the existing zoning of the land does not permit the additional new construction or reconstruction of an existing building, proper zoning shall first be affected under separate APPLICATION TO AMEND THE MAP OF THE PLANNING AND ZONING CODE. An APPLICATION FOR REVISED CERTIFICATE FOR SITE DEVELOPMENT will not be accepted unless the land is properly zoned.
